## Models

### IntegrationData

```
▼ IntegrationData {  
  dataParams:    ► DataParams { }  
  sharingParams: ► SharingParams { }  
  dataType:      ► IntegrationDataType string  
  dataObject:    string  
}
```

### DataParams

```
▼ DataParams {  
  cspId:      string  
  applicationId: string  
  recordId:   string  
}
```

### IntegrationDataType

▼ **IntegrationDataType** string

⇒ Enum:

-Array[7]

## SharingParams

▼ **SharingParams** {

toShare: boolean

⇒ trustCircleId: string

isExternal: boolean

}
